# Appendix

## Overview

This Appendix is updated each time change pages are issued for the EDE Technical Reference. The tracking log is added for each set of change pages as they are issued, providing you with a cumulative list of the updates made to the document.

New text additions in EDE Technical Reference change pages are identified with ***bold italic*** text. Text deletions are marked with ~~strikethrough~~.

When a section of the EDE Technical Reference is modified through a change page release, the footer on each page of the modified section is updated to reflect the month that the change pages were issued.  For example, if a change is made to page 1-12 in January 2007, all pages in section 1 will show "January 2007" in the footer.  Use the corresponding Tracking Log to identify what was revised in the section as part of a specific month's change page posting.
